

**REMINDER**

# TREAT YOUR ASH TREES

For as little as \$4.05/cm in diameter

BEACONSFIELD

# Continue treatment to prolong the life of your ash trees!

The emerald ash borer is an Asian insect that has devastated a large part of North America's ash trees in less than 15 years; it has now reached Beaconsfield. Trees need to be treated every two years with TreeAzin which must be applied by certified personnel.

## Preventative treatment at preferred price

Treatment benefits:

- More economical than felling
- Ecologically responsible
- Prolong the lifespan of your trees

## Services and Process

Make your request for preventative treatment before Thursday, August 15

Treatment must be completed by August 31

- **Online by clicking the Emerald Ash Borer link**
- **By email at [arbres-trees.permis@beaconsfield.ca](mailto:arbres-trees.permis@beaconsfield.ca)**
- **By phone at 514 428-4430, ext. 4437**

## Direct payment at your home

Cash not accepted

- Visa
- MasterCard
- Interac
- Cheque

## TAKE ADVANTAGE OF THE PRICE OBTAINED BY THE CITY

Example - every second year

Tree 42 cm x \$4.05..... \$170.10

The average cost for felling a tree, including grubbing and replacement: **\$1,600**

*Treatment is not guaranteed.*

## Ash tree felling rules

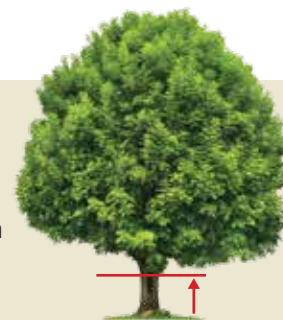

- Any felled ash tree must be replaced
- Any dead ash tree must be felled within 6 months

## Calendar

Ash trees can be cut year-round

### EXCEPTION

An ash tree 15 cm or less in diameter at 1.3 m from the ground, may be felled without applying for a permit

Diameter 15 cm or less at a height of 1.3 m

No charge for permit

Time period: within 60 days
